

# 2016 MOOMBA BOATS

MOOMBA BOATS • 2016 LINEUP

# GET MORE

With Moomba, you get more. From endless custom shaped wakes to comfortable, stylish interiors and intuitive technology, Moomba is what you need for the water. We give you what matters — absolute power, an intelligent hull design, an improved wake plate, massive ballast, smart technology and beyond. Because giving you more opens up all kinds of possibilities. It's about the experience, and we believe you should have everything you need to make the most of every launch.

We represent those who truly do what they love. We thrive on a chemistry that inspires every one of us to pour ourselves into our work. Could it be because we're passionate builders? Or because we're obsessed engineers who stop at nothing to crack the code to an even better wake? When you live so close to the work, you realize that it's as much about fun as it is a profession. That's the beauty of Moomba. We exercise our expertise by building a best-in-class lineup, so you can experience your passion for the greatest ride on the water.

# SIMPLICITY IS GENIUS

We've simplified complexity within every Moomba design by distilling our beliefs down to four guiding principles — Performance, Comfort, Reliability and Fun. Each of these values informs every decision we make in honor of creating the best towboats in the segment. All great things are simple. Moomba is one of those great things.

## PERFORMANCE

A towboat is only as capable as its weakest link. So we reimagined every aspect of our 2016 lineup to create boats that embrace performance in a holistic sense. State-of-the-art power from the standard Raptor<sup>®</sup> by Indmar<sup>®</sup> 6.2L 400 is balanced with precision handling, a proven hull design, massive ballast and so much more. Moomba<sup>™</sup> delivers the most performance in its class. Experience it for yourself.

## RELIABILITY

Reliability is everything when it comes to your time on the water. Moomba<sup>™</sup> ensures top quality and satisfaction with every boat sold, and we have 10 CSI Awards to prove it. We believe reliability should extend well beyond the build of a product. That's why every Moomba<sup>™</sup> comes standard with our Moomba<sup>™</sup> Protection Plan.

- LIMITED LIFETIME HULL WARRANTY
- FIVE-YEAR LIMITED PARTS & COMPONENTS WARRANTY
- FIVE-YEAR INDMAR<sup>®</sup> FACTORY ENGINE WARRANTY
- BOATMATE TRAILERS FIVE-YEAR LIMITED WARRANTY

## COMFORT

Performance only feels as good as the comfort that comes with it. That's why every Moomba<sup>™</sup> is designed to keep you comfy all day, every day. From the improved interior and helm controls that give the driver a new tier of control, to the adjustable seats and storage, these boats are built with every party in mind. That's including the riders who take advantage of Moomba's Aviator 2 Tower for its upgraded board storage and quick fold assist. Kick back after a long session and you'll feel the difference for yourself.

## FUN

This is why wake sport riders choose Moomba<sup>™</sup>. Fun is the backbone of everything we believe in, which is why you get so many features packed into such a practical package. Enjoy huge pro-level waves thanks to Moomba's Auto Flow 2.0 Surf System, a 50% larger Moomba<sup>™</sup> Wake Plate and our 2,000 lb. Gravity III Ballast System. When you're not behind the boat, take in the good times with Moomba's standard Fusion Stereo with Kicker Speakers and spacious layout for all your friends. Think of it as a party you can shred behind.

# WAKE AND WAVE SHAPING

Riding a Moomba wake or wave feels different because they are different. The technology built into the boat itself, like a faster-planing Moomba Wake Plate and Auto Flow 2.0 Surf System, creates a more versatile canvas for you on the water.

## GRAVITY III BALLAST SYSTEM

### *Fill it Up, Tear it Up*

Weight your boat just right with up to 2,000 lbs. standard on Moomba's larger boats — 1,800 lbs. on the smallest. That's some serious wake action. If you feel like you want to go even bigger, add the additional Surf Package for a 500 lb. increase. No matter what you choose, know that every Moomba's ballast system is designed specifically for good times and great waves.

## AUTO FLOW 2.0 SURF SYSTEM

### *Find Your Pocket*

Moomba's redesigned Auto Flow 2.0 Surf System delivers all-day waves with the flick of a switch. New contoured plates tame and control water flow coming off the surf-optimized hull. The result is massive surf waves, clean lips and tons of push from the swim platform all the way back to the barrel. Plus, you can transfer side-to-side in a matter of seconds at the push of a button — no need to shift people around. Just let the ballast do the work and take advantage of smooth, customizable wave shapes.

## MOOMBA SMART PLATE 2.0

### *Larger Plate, Faster Plane*

The industry has been at a standstill for improvements on increasing a wake plate's functionality, so we set out to change that for 2016. The new standard Moomba Wake Plate is 50% larger providing faster planing and a more powerful wake.

# DRIVER AND PASSENGER COMFORT

Being comfortable, and knowing your friends and family are too, is essential to a great day on the water. Fortunately for you, Moomba boats come standard with a high-touch blend of features that make driving a dream and being a passenger, well, even more relaxing.

## CONVERTIBLE REAR FACING SEAT AND BACKRESTS

### *Comfort Meets Function*

Every 2016 Moomba comes with the all-new standard convertible rear bench seat. This comfortable seating configuration quickly converts from a traditional bench to a rear-facing seat to cheer on your favorite rider. For even more functional comfort, add the additional backrest option in just seconds and stow it out of sight when you're done.

## DIGITAL CRUISE PRO II

### *Hold it Steady*

We've made precision-speed easy with Digital Cruise Pro control. Standard on every 2016 Moomba, this cruise system puts control literally at the tips of your fingers. Set your speed through the digital display or the new column mounted lever. Then punch the throttle and enjoy.

## KICKER MARINE AUDIO

### *Loud and Proud*

No boat is complete without the right stereo setup. Every Moomba is fit to provide volumes of sound courtesy of the standard Fusion Stereo and Kicker 6.5" Speakers. And for even more boom in your boat, upgrade to the Kicker Amps and Sub.

# THE POWER OF FUN

The Raptor® series is based off a proven workhorse, the Built Ford Tough® 6.2L 16-Valve V8 engine that's designed, engineered, built and torture-tested by Ford. The same state-of-the-art engine that powers the F-150 SVT Raptor® and F-Series Super Duty® Trucks, and boasts best-in-class horsepower, torque and max towing ratings.

## ENGINE SPECIFICATIONS

TYPE	VALVE CONFIGURATION	FIRING ORDER	FUEL SYSTEM
6.2L 16V SOHC v-8 Ford F-Series Super Duty® Block Single-Overhead-Cam Design and Dual-Equal Variable Cam Timing	Overhead Camshaft with Variable Valve Timing	1 - 5 - 4 - 8 - 6 - 3 - 7 - 2	Indmar® Design Tuned Sequential Fuel Injection
OIL TYPE	DISPLACEMENT	STROKE & BORE	FUEL TYPE
Semi synthetic 5-W-30 Oil Meeting API Rating of SN	379 CID (6.2L)	3.74" (95mm) / 4.015" (102mm)	89 Octane Unleaded (max 10% ethanol)
	CYLINDER HEADS	ENGINE BLOCK	COMPRESSION RATIO
	Aluminum	Cast Iron 90 Degree - V	9.8:1

# 400

## EVERYTHING YOU WOULDN'T EXPECT FROM A BASE MODEL

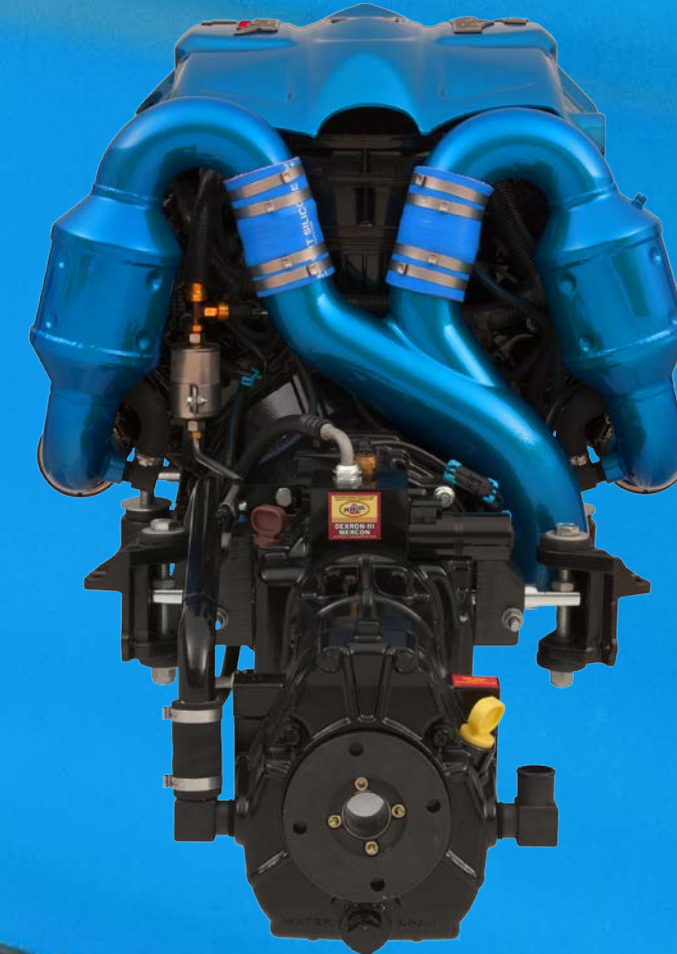

The level of performance you get from the Raptor® 400 has historically been reserved only for those who choose to upgrade. That's because this engine has proven itself under more extreme conditions than you'll likely ever experience. Delivering over 404 ft.-lbs. of torque, you get industry-leading efficiency, displacement, torque and horsepower to match. This is the new standard in towboat power.

# 440

## ADVANCED PERFORMANCE BUILT LIKE NO OTHER

Torque is clearly a dominant gene in the Raptor® family, making the 440 the stronger sibling within the Moomba lineup. You get best-in-class horsepower and 427 ft.-lbs. of torque to quickly plane a fully loaded ballast and cockpit. Plus, the Raptor® delivers fuel efficiency that lets you ride all day long. If going big is part of your daily to-do, then this is the engine to get it done.
