PRECISION BUILT IN
MARYVILLE, TENNESSEE

RIDER: JORDAN WOLFE

PROOF IS GREATER THAN PROMISE

It's easy for towboat makers to stake claims across an industry fighting for the same titles. At Supra™, we see things a little differently. Instead of touting our innovations as champion among the noise of every other brand, we hinge our reputation on a simple concept that can't be skewed — proof. Everything we believe, everything we build and everything we release to the water adds up to far more than ink on a page. It adds up to the experience.

Our actions are our words. Each of our fine details say as much about us as our whole, and it all leads to a place that separates us from the rest — Where Passion Meets Precision. It's like an inspiring painting. Or a captivating piece of music. It's art. And though a Supra™ won't be on display at a gallery near you anytime soon, these boats have a brilliant ability to make icons out of the passionate riders who ride behind them. One look at our roster and you'll see — the proof is there.

RIDER: BRAD TEUNISSEN

EVERYTHING WE
OFFER ADDS UP TO
SOMETHING MORE

HIGH PERFORMANCE

Performance is a whole lot more than what you see under the hood. While the standard 6.2L 400 engine gives you state-of-the-art power at your fingertips, we recognize true performance in an even more holistic sense—handling, acceleration, competition hull design, Swell Wake Surf capabilities and beyond. Because it's more than numbers that move you. It's punching the throttle and feeling the machine react as if it were an extension of yourself.

PRECISION ENGINEERING

We view precision as less of an added benefit and more of an expectation. It's what makes a Supra™ feel so effortless with every launch. From the intuitive VISION Touch System and industry-first Steering Wheel Controls, to the Supra™ Smart Plate 2.0 and VISION Transom Camera—every Supra™ is nothing short of an engineering marvel. And we have 10 consecutive CSI Awards to prove it.

BOLD DESIGN

Engaging with a design should feel intuitive, and admiring a design's aesthetic should feel like an emotional bond. The best designs seamlessly merge both. Supra™ does more than strike the perfect balance between beauty and aggression. We meticulously work to unify purpose with passion. From the highly functional Pro-Edge Tower to the small yet significant billet aluminum accents, every facet of a Supra™ has been thought through, so you don't have to.

REFINED INTERIORS

If we could make the time between sunup to sundown longer, we would. What we can do is make every minute on the water more valuable than the next. It comes down to the refined comforts you'll find in every detail of a Supra™. From functional flip seats and storage, to the luxurious billet accented mission control helm, a heated driver seat and high definition sound—Supra™ keeps you in the moment all day long.

RIDER: JAMIE MCCAULEY

ADVANCING TO INSPIRE

In order to challenge convention, you need to create something original. Something that stands out. That turns heads. And it needs to be useful in every sense of the word. You'll find these very principles represented in every new Supra™ technology. Because challenging convention is progress, and our motivation is to put you well ahead of the rest.

RIDER: PARKER PAYNE

SUPRA SWELL SURF 2.0

The 2016 Swell Surf 2.0 features redesigned 3/16-inch stainless steel blades shaped to calm water turbulence and steer it into the flow of the Supra™ Smart Plate 2.0. These controlled flows set the stage for a clean wake with more height, shape and push. When the Swell Surf's currents converge, the result is a smooth, consistent vortex-effect that delivers incredible wave shapes that are easily tailored to fit every kind of rider's style.

VISION TOUCH DASH

With Supra's new VISION Touch Integration, you get full control of your ride through a simple touchscreen interface. Everything from ballast and surf settings, GPS, stereo controls and more appear in full color and within easy reach, making a Supra™ as fun to drive as it is to ride behind.

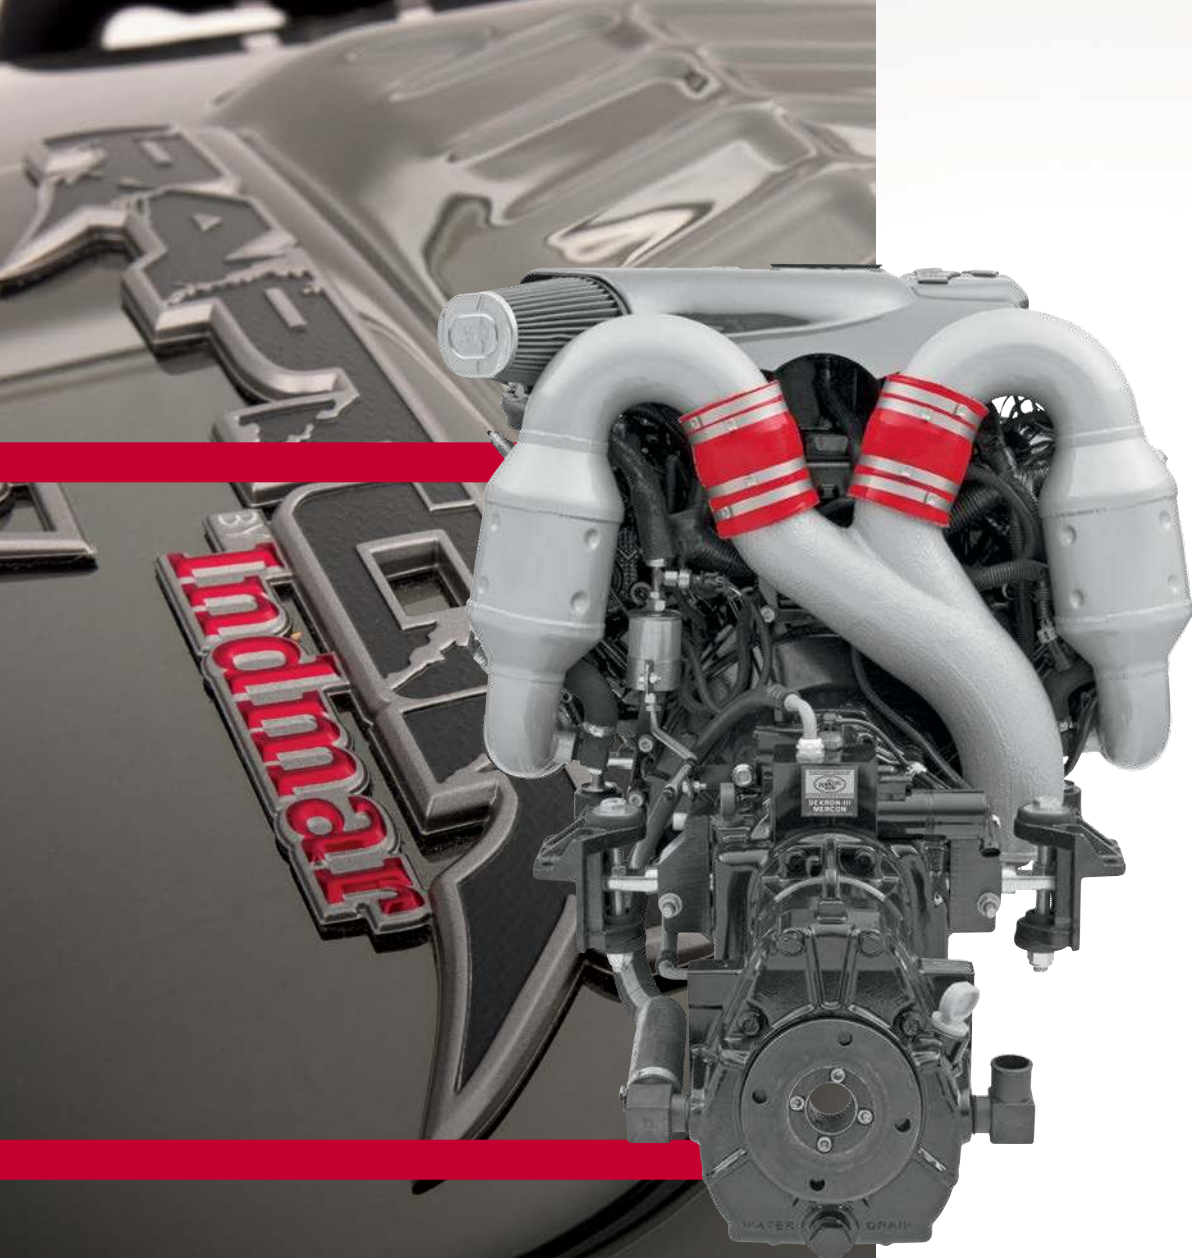

STEERING WHEEL CONTROLS

Supra™ pioneered the industry's first integrated steering wheel and column controls. With column-mounted levers and color-contrasted buttons on the wheel, you get full control of your boat's stereo, Swell Surf System, wake plate and cruise adjustments right at your fingertips.

VISION TRANSOM CAMERA

The VISION Transom Camera makes safety an easy priority. When in reverse, you get an automatic feed of what's behind you displayed on the VISION Touch system. And when it's time to surf, get a full view of the rider behind you at the touch of a button.

LET POWER DICTATE POSSIBILITY

The Raptor® by Indmar® engine series is based off of a proven workhorse—the Ford® 6.2L 16-Valve V8. Designed, engineered and torture-tested by Ford®, Indmar® ripped apart the block and remastered it for the water. What you get is the same state-of-the-art power you'd feel behind the wheel of an F-150 SVT. Raptor® combined with Indmar's purpose-driven innovations to deliver more torque, faster acceleration and better fuel economy specifically for the water.

400

440

575

PROVEN PERFORMANCE

Yesterday's performance mantra was focused on horsepower—a necessary component for top-end speed, but not the right metric for loaded boats in big wake applications. While horsepower is still important today, Supra's power philosophy is centered around torque and water-specific engineering. With Raptor® by Indmar's 6.2L displacement, dual spark plug cylinders and a next-generation silent exhaust system, we're not just meeting water sports enthusiasts' expectations. We're setting them.

TOW-FOCUSED TORQUE

Off-the-line boat planing and lightning fast rider pulls are now a reality thanks to Raptor® by Indmar's low-end RPM power technology—aka—Torque Centric Performance. TCP provides best-in-class torque and horsepower where you need it most: between 2,500 and 3,500 RPMs. Even with full ballast and a maxed out crew onboard, Raptor® delivers immediate throttle and plane for unparalleled performance in wake sport applications.

FIVE-YEAR WARRANTY

Raptor® by Indmar® represents power, performance and quality to last. That's why the factory-backed five-year warranty is such an easy endorsement on our end, and it gives you extended protection so all you have to worry about is your next ride. It's proof of Supra's absolute commitment to quality, durability and reliability.

FUEL EFFICIENT

The Raptor® 6.2L engines run inherently more efficiently, giving you more low-end power with lower fuel consumption. That conveniently translates to more time on the water and less time at the pump. Raptor's wide band O2 sensors deliver better fuel economy through a broader RPM range while the dual spark plugs create a more efficient combustion.

ROUSH PERFORMANCE

The ROUSHcharged Raptor® by Indmar® delivers the most powerful package in the Raptor® engine lineup. With ROUSH® Performance supercharging technology, you get an additional 112 HP and nearly 150 ft.-lb. of torque over the Raptor® 440. It's the ideal partner when you need to power out of the hole fast at max capacity.

SUPRABOATS.COM

A blue and white Supra SE speedboat is shown from a side profile, moving across a body of water. The boat has a black canopy and the word "SUPRA" is visible on its side. A wakeboarder is in mid-air, performing a trick, with a green tow rope connecting them to the boat. The background features a dense forest of green trees on a hillside.

SE 450-550

WE CREATED A MONSTER

At nearly 25 feet, the Supra™ SE makes everything you know about measurements feel like a lie. This boat is massively spacious from bow to stern, and its absolute detail speaks for itself — from the billet accented mission control helm to custom colored contrast stitching. Once you work past admiring the SE's beauty, you won't be able to stop riding it.

SUPRABOATS.COM

RIDER: TREVOR HANSEN

SE 450-550

Proving itself on the biggest stages in professional wakeboarding, the SE is well recognized as the official towboat of the Pro Wake Tour and WWA World Wakeboarding Championships. The SE is the most capable model in the lineup — from massive wakes and premium technology, to an ultra-spacious interior that gives you and your whole crew unrivaled comfort. This is the pinnacle of world-class performance.

Z-5 CARGO BIMINI

The optional Z-5 bimini provides maximum coverage and function. With a large footprint and sturdy stainless steel frame, it provides hours of sun-stopping shade and storage for up to two surfboards.

SEADEK FLOORING

When there are more fans in your boat than there are riders behind it, premium SeaDek Non-Skid is ideal. Its durable construction and laser cut design is perfect for heavy traffic, easy maintenance and superior traction, even when wet.

SUPRA LAUNCH SYSTEM

The Supra™ Launch System combines the power of the Supra™ Smart Plate and revised Swell Surf System to make planing with a large load faster and smoother than ever before. Simply punch the throttle and feel the low-drag system do all the work.

SC 400-550

THE SMALL DETAILS PAINT THE BIG PICTURE

Looking through the 2016 Supra™ lineup, the SC is comparatively short. But in the grand scheme of things, this boat packs its own spacious punch. We focused on every inch of this 21-foot machine to give you more, and this boat does just that. The SC is a testament to the fact that high performance does come in a practical size.

SC 400-550

From powerful, custom-shaped wakes to a spacious, muscular bow, the Supra™ SC takes a page out of its larger SG sibling's book. That is to say, the SC has just as much power, technology and wake-shaping capability as the lineup that precedes it. What makes this boat unique is its performance-to-size ratio, giving you full mobility for simple day trips or long weekend sessions. Whatever your intention, the Supra™ SC gets you there.

LENGTH 21' 8" (6.6m) **LENGTH WITH PLATFORM** 23' 8" (7.2m) **LENGTH WITH PLATFORM & TRAILER** 26' 4" (8.0m) **WIDTH** 102" (2.6m) **WIDTH WITH TRAILER** 106" (2.7m) **DRAFT** 26" (66cm) **BOAT WEIGHT** 4,300 lbs. (1,950kg) **BOAT & TRAILER WEIGHT** 5,600 lbs. (2,540kg) **PASSENGERS** 14 **BALLAST CAPACITY** 2,900 lbs. (1,315kg) **FUEL** 49 GALS (185.5L)

STANDARD FEATURES

1. The standard bow filler cushions on every Supra™ easily convert bow seating upfront into a spacious place to soak up the sun
2. When the action is behind you, deploy the integrated port lounge seat and watch the show in complete comfort
3. The Supra™ Smart Plate 2.0 was redesigned to be nearly 50% larger, improving the boat's ride, planing speed and wake shape

This package can be added to any Supra™. So no matter your preference in model, you can elevate your towboat to the next level.

PASSION PERFORMANCE AND THE PROS WHO PROPEL IT

Meet Team Supra™. You'll find they're not all too different from Supra™ boats in the way they ride — with style, passion and a sense of individuality that makes you wonder how such a tight-knit team can be so diverse. These are the faces of athletes pushing wake sports from 80+ feet deep behind the greatest towboats available. The same faces we call friends from a few feet across the table, hanging out, sharing laughs and preparing for another full day on the water. This is our family. And our arms are open to all who share the same infatuation and dedication to good times on the water.

RECORD-BREAKING FIRSTS FOR THE WIN

At Supra™, our words are our actions. So when we saw the prestigious 2015 Pro Wakeboard Tour on the horizon, we got to work making sure it would live up to the same exacting standards and level of commitment we put into every one of our boats. As a result, the 2015 Supra™ Boats Pro Wakeboard Tour wasn't just the most successful season in the tour's history, it was an epic battle for record-breaking firsts. We're proud to see our passion for the water inspire the sport's greatest athletes to push further and the incredible fans make it all worth while.

FIVE FIRSTS THAT ROCKED THE PWT WORLD IN 2015

- First year for Supra™ as the official towboat of the Pro Wake Tour
- First ROUSHcharged boat to pull the Pro Tour
- First ever Pro-Wake Surf Tour
- First ever wake-to-wake 1080 landed in competition by Team Supra Rider Cory Teunissen
- First towboat fan experience

2015 PRO WAKEBOARD TOUR: BY THE NUMBERS

- Largest pro purse in Tour history – \$163,000
- Most attendance of any Pro Tour – 10,000+
- Most livestreams in Tour history – 39 Million

Sliver's Choice reserves the right to change model line specifications, equipment, color schemes and pricing at any time without notice or incurring obligations. It is the Dealer's responsibility to adhere to all State and local regulations and laws governing minimum requirements needed on each region's watercraft, such as trailer brakes, kill switches, and other safety equipment.

Sliver's Choice encourages all boating participants to learn and follow safe boating practices. There are risks associated with boating and water sports activities. Be mindful of the risks, familiarize yourself with the environment, know your limits, and conduct yourself accordingly. Read your Owner's Manual and comply with all warnings. For additional safety information, please visit the US Coast Guard Auxiliary at www.uscgauxed.org or the Water Sports Industry Association at www.wsia.net.
