**MOOMBA BOATS**

# No Worries

It's more than a few words, it's a state of mind and an attitude that makes waves on and off the water. Moomba® boats are built for endless surf sessions, epic memories and life without worries. Reliable and loaded with standard features, every Moomba performs at the highest level for people with an uncommon craving for endless wakes.

Standing out  
in our element

### More Performance at Play.

Compared to the competition, Moomba's wake technology and factory performance win in every way. Our standards are their options and that's a guarantee you get in every 2020 model.

### Reliably Worry Free.

With industry-leading reliability backed by a protection plan second to none, it's no wonder why owners have helped Moomba® earn 14 consecutive NMMA CSI awards. It's just another way you get more with Moomba.

### Unwind All the Time.

We put your comfort at the top of our to-do list. That's why every Moomba boat offers a fit and finish level that's untouchable in its class—so you can relax as hard as you ride.

### Swimming in Good Vibes.

With Moomba, the wake and surf vibes get amplified and the party goes wherever you do. So crank up your session because every boat we build is designed to enhance your time on the water.

# More comes standard

With Moomba®, you get more. Intelligent hull design, massive ballast, absolute power, functional interior design and intuitive technology come standard. We give you what matters on the water so you can make the most of every session.

Make Waves

## AUTOWAKE

### Put Your Wakes and Waves on Autopilot.

AutoWake® is our patented technology system that automatically and continuously manages the position of your hull in the water for a crisp and repeatable wake. From session to session, AutoWake takes the guesswork and stress out of creating and maintaining the best wakes and waves.

#### PREDICTIVE STATE TECHNOLOGY

Senses and fills ballast to predicted levels before you launch to provide a precise wave.

#### MULTI-SENSOR TECHNOLOGY

Measure true ballast levels in real-time with ballast sensors.

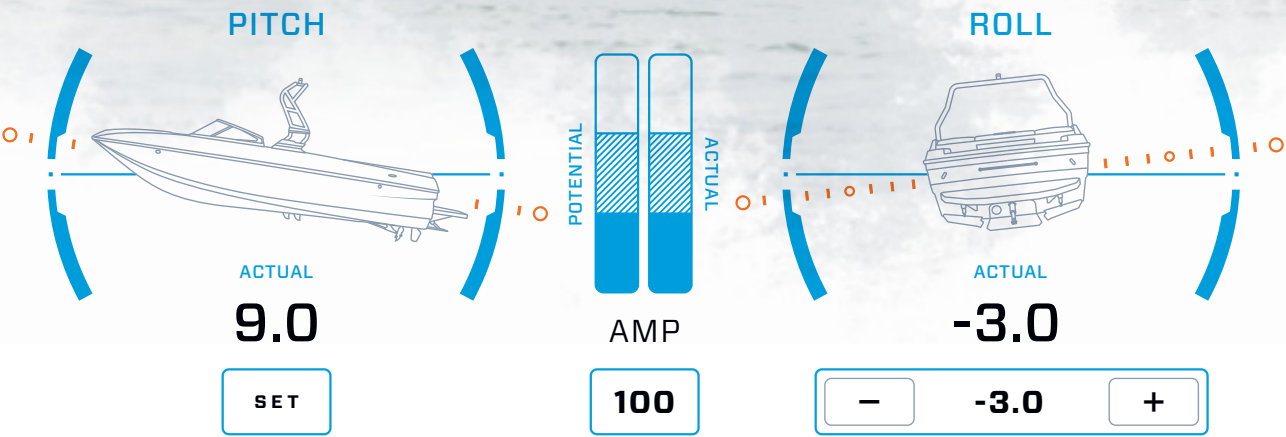

#### PITCH AND ROLL ADJUSTMENTS

AutoWake measures pitch and roll to automatically fill or drain ballast as needed.

#### INDUSTRY-EXCLUSIVE AMPLITUDE DISPLAY

This display works with amplitude presets to show real-time displacement numbers.
